

## Testimonials

"I felt the staff was friendly, efficient easy to understand and knowledgeable. Most importantly Janet took the time to listen and understand my needs as a patient."

"Tired of feeling sick and tired, give Dr Bawa a try!" (Results may vary.)

"Dr. Bawa cured me. I had went to many other doctors, but when I found Dr Bawa he was professional and knew what he was talking about. The medication that he gave me for low iron made my heart palpitations stop and we are truly blessed to have Dr. Bawa in our area. He is a great physician and I am thankful he is my Doctor. His office staff is very friendly and you can tell they love their job and that they love helping others. Thank you Dr. Bawa and all of your wonderful staff."

"A visit with Dr. Nitin Bawa is well worth it! He offers the latest techniques and services, and I felt we truly understood one another during the consultation. I was surprised to find that the treatment I sought, laser for sun-damaged skin, could be done within days. Dr. Bawa and his entire staff really take great pride in their work, and made this a pleasant experience. My husband's remark after the procedure; "That was well worth it!"

"Before seeing Dr. Bawa, I was not feeling well. I was run down after experiencing three infections, I had gained a lot of weight, and my blood pressure kept creeping up. Integrative medicine interested me so when I saw his ad in "Natural Awakenings", I knew I wanted to see him. From the first visit, I was impressed with his sincere interest in my health. He was patient, he explained the tests he wanted to administer and when the results came in, he was thorough in going over the results. I am amazed after a month of treatment of the positive results. My blood pressure has gone down significantly, my hands no longer crack and peel, I have lost some weight and my joints are not painful. I am keeping a journal of the positive results. In my opinion, he is the best and I highly recommend him to men and women alike."

"I first came to Dr. Bawa while on vacation 3 years ago. I was having severe pain in my uterus, abnormal bleeding and had a urinary tract infection. I shared with him about the problems and pain I had been having since giving birth to my daughter 14 months earlier. My OBGYN back home had merely told me that what I was experiencing was normal after childbirth. Dr. Bawa treated my UTI and also strongly encouraged me to go straight home and find a doctor that would work with me and find what was causing my abnormal bleeding and pain. He said that my condition was not normal and that I should not stop until we found the source. He said, "If you were my patient, I would have you in my care until we found the problem and treated it." "Don't take no for an answer," he said. I took his advice, went home, found a wonderful new OBGYN and told her what Dr. Bawa had said. She found out that I had an infection in my uterus left over from childbirth that had gone untreated for 14 months. I had to do several rounds of antibiotics, as well as a laparoscopic hysterectomy exploratory DNC. I was very close to

losing my uterus for good. Had we gone any longer with it untreated, it would have been a loss. She was able to save it. I was told that I might not be able to get pregnant again, and that if I was able to that it could take a while. After 8 months of healing, my body was finally back to normal, and my uterus was in great shape! I was able to start trying to get pregnant. Guess what? I got pregnant that first month. I am now the proud mommy of 2 beautiful healthy children. I truly believe that Dr. Bawa cared enough to give me the right advice that helped save my uterus and made me well again. I'm very thankful for good doctors that care enough to go the extra miles for their patients. Now that I live here in Santa Rosa Beach, Dr. Bawa is my doctor for sure!" (Results may vary.)

"Dr. Bawa rocks! He is one of the best Doctors in this area and his staff is first class. They are professional yet understanding and very responsive to your requests. Two employees in particular, Erica and Kendra, always remember my name and never make me wait when my need can be quickly dealt with. This is what you expect in customer service. I strongly recommend Dr. Bawa for your weight loss and medical needs." (Results may vary.)

"After a long time to visit this office I am expecting to come back. The Doctors and all the people involved with my health are very careful and interested to see my health improved and get better.....!!!!.I thank them very much for everything they do for me.....Thank you." (Results may vary.)

"It's about time I found a Doctor that really knows what he is doing! I've been very happy with Dr. Bawa for the past year. I'm also more comfortable going to the office since he had the good sense to fire Kathy. Never had I been made to feel as insignificant as she made me feel. She was rude to the other staff as she felt she was better at everything. My overall health has improved as has my outlook on my life. Thank you Dr. Bawa" (Results may vary.)

"All the staff at Dr. Bawa's office are friendly and helpful. I feel so much better since getting on the bio-identical hormones. When I have a medical problem I call and I get in right away. I highly recommend Dr. Bawa and both of the PA's here." (Results may vary.)
